

Thrilling Regattas for Everyone: Sailing Aboard Vanderbilt's Historic 12mR VIM at the Voiles de Saint-Tropez

Noblesse®, leading the way in unique yachting experiences, is set to join the Voiles de Saint-Tropez with the famed classic yacht VIM.

Initially commissioned in 1939 by yachting icon Harold S. Vanderbilt, VIM represents a remarkable chapter in yachting history. Noblesse now offers sailing enthusiasts the opportunity to participate in thrilling competitions aboard VIM, either for the entire week or for individual days.

The Voiles de Saint-Tropez are scheduled from September 28th to October 6th, 2024. Established in 1999 by the Société Nautique de Saint-Tropez, this event gathers an impressive array of classic boats, some over a hundred years old, as well as cutting-edge modern yachts. With over 250 participating vessels, this exceptional blend celebrates the original spirit of fair play: "the best regattas on the water and the best atmosphere on land.

"The participation of VIM at the Voiles de Saint-Tropez is a tribute to the rich history of these elegant yachts and our deep passion for this sport. Our premium regatta package offers guests the opportunity to sail aboard VIM during the regatta—a unique experience unparalleled before," says Adi Konstatzky, founder and CEO of Noblesse.

About VIM: Harold S. Vanderbilt commissioned VIM, a classic 12-metre class yacht, in 1939. Renowned designer Olin J. Stephens of Sparkman & Stephens was tasked with her design. Vanderbilt envisioned a yacht capable of winning the America's Cup. While narrowly missing this goal in 1958, VIM nonetheless secured a lasting place in sailing history. Since then, she has remained actively in service, sailing in some of the most prestigious regattas in the Mediterranean today.
